

Athy Frank Walker;

Thank you so much for your kindness and professional work on my recent legal issues.

What may have seemed like an easy routine case for you was an experience I never thought I would have and pray I never put myself into again.

Quite a few important things to myself and my family were depending on a good outcome and what you have done for us is something I cannot put into words. Findin you was the best luck I could have had.

Thanks Again!

You've played such an important role in my life and I will never stop thanking a higher power for your assistance.

M
